AYER'S Sarsaparilla

FOR PURIFYING THE BLOOD.

And for the speedy cure of the following complaints:

Scrofula and Scrofulous Affections, such as Tumors, Ulcers, Sores, Eruptions, Pimples, Pustules, Blotches, Boils, Blains, and all Skin Diseases.

OAKLAND, Ind., 6th June, 1859.

J. C. AYER & Co. Gents: I feel it my duty to acknowledge what your Sarsaparilla has done for me. Having inherited a scrofulous infection, I have suffered from it in various ways for years. Sometimes it burst out in Ulcers on my hands and arms; sometimes it turned inward and distressed me at the stomach. Two years ago it broke out on my head and covered my scalp and ears with one sore, which was painful and loathsome beyond description. I tried many medicines and several physicians, but without much relief from any thing. In fact, the disorder grew worse. At length I was advised to read in the Gospel Messenger that you had prepared an alterative (Sarsaparilla), for I knew from your reputation that any thing you made must be good. I sent to Cincinnati and got it, and used it till it cured me. I took it, as you advise, in small doses of a teaspoonful over a month, and used almost three bottles. New and healthy skin soon began to form under the scab, which after a while fell off. My skin is now clear, and I know by my feelings that the disease has gone from my system. You can well believe that I feel what I am saying when I tell you, that I hold you to be one of the apostles of the age, and remain ever gratefully, Yours,

ALFRED B. TALLEY.

St. Anthony's Fire, Rose or Erysipelas, Tetter and Salt Rheum, Scald Head, Ringworm, Sore Eyes, Dropsy.

Dr. Robert M. Preble writes from Salem, N. Y., 12th Sept., 1859, that he has cured an inveterate case of *Dropsy*, which threatened to terminate fatally, by the persevering use of your Sarsaparilla, and also a dangerous *Malignant Erysipelas* by large doses of the same; says he cures the common *Eruptions* by it constantly.

Bronchocele, Goitre or Swelled Neck.

Zebulon Shaw of Prospect, Texas, writes: "Three bottles of your Sarsaparilla cured me from a *Goitre*—a hideous swelling on the neck, which I had suffered from over two years."

Leucorrhœa or Whites, Ovarian Tumor, Uterine Ulceration, Female Diseases.

Dr. J. B. S. Channing, of New York City, writes; "I most cheerfully comply with the request of your agent in saying I have found your Sarsaparilla a most excellent alterative in the numerous complaints for which we employ such a remedy, but especially in *Female Diseases* of the Scrofulous diathesis. I have cured many inveterate cases of Leucorrhœa by it, and some where the complaint was caused by *ulceration* of the *uterus*. The ulceration itself was soon cured. Nothing within my knowledge equals it for these female derangements."

Edward S. Marlow, of Newbury, Ala., writes, "A dangerous *ovarian tumor* on one of the females in my family, which had defied all the remedies we could employ, has at length been completely cured by your Extract of Sarsaparilla. Our physician thought nothing but extirpation could afford relief, but he advised the trial of your Sarsaparilla as the last resort before cutting, and it proved effectual. After taking your remedy eight weeks no symptom of the disease remains."

Syphilis and Mercurial Disease.

NEW ORLEANS, 25th August, 1859.

DR. J. C. AYER: Sir, I cheerfully comply with the request of your agent, and report to you some of the effects I have realized with your Sarsaparilla.

I have cured with it, in my practice, most of the complaints for which it is recommended, and have found its effects truly wonderful in the cure of *Venereal and Mercurial Diseases*. One of my patients had Syphilitic ulcers in his throat, which were consuming his palate and the top of his mouth. Your Sarsaparilla, steadily taken, cured him in five weeks. Another was attacked by secondary symptoms in his nose, and the ulceration had eaten away a considerable part of it, so that I believe the disorder would soon reach his brain and kill him. But it yielded to my administration of your Sarsaparilla: the ulcers healed, and he is well again, not of course without some disfiguration to his face. A woman who had been treated for the same disorder by mercury was suffering from this poison in her bones. They had become so sensitive to the weather that on a damp day she suffered excruciating pain in her joints and bones. She, too, was cured entirely by your sarsaparilla in a few weeks. I know from its formula, which your agent gave me, that this Preparation from your laboratory must be a great remedy; consequently, these truly remarkable results with it have not surprised me.

Fraternally yours, C. V. LARIMER, M. D.

Rheumatism, Gout, Liver Complaint.

INDEPENDENCE, Preston Co., Va., 4th July, 1859.

DR. J. C. AYER: Sir, I have been afflicted with a painful chronic *Rheumatism* for a long time, which baffled the skill of physicians, and stuck to me in spite of all the remedies I could find, until I tried your Sarsaparilla. One bottle cured me in two weeks, and restored my general health so much that I am far better than before I was attacked. I think it a wonderful medicine. J. FREAM.

Jules Y. Gotchell, of St. Louis, writes: "I have been afflicted for years with an *affection of the Liver*, which destroyed my health. I tried every thing, and every thing failed to relieve me; and I have been a broken-down man for some years from no other cause than *derangement of the Liver*. My beloved pastor, the Rev. Mr. Espy, advised me to try your Sarsaparilla, because he said he knew you, and any thing you made was worth trying. By the blessing of God it has cured me, and has so purified my blood as to make a new man of me. I feel young again. The best that can be said of you is not half good enough."

Schirrus, Cancer Tumors, Enlargement, Ulceration, Caries and Exfoliation of the Bones.

A great variety of cases have been reported to us where cures of these formidable complaints have resulted from the use of this remedy, but one space here will not admit them. Some of them may be found in our American Almanac, which the agents below named are pleased to furnish gratis to all who call for them.

Dyspepsia, Heart Disease, Fits, Epilepsy, Melancholy, Neuralgia.

Many remarkable cures of these affections have been made by the alterative power of this medicine. It stimulates the vital functions into vigorous action, and thus overcomes disorders which would be supposed beyond its reach. Such a remedy has long been required by the necessities of the people, and we are confident that this will do for them all that medicine can do.

Ayer's Cherry Pectoral,

FOR THE RAPID CURE OF

Coughs, Colds, Influenza, Hoarseness, Croup, Bronchitis, Incipient Consumption, and for the Relief of Consumptive Patients in advanced Stages of the Disease.

This is a remedy so universally known to surpass any other for the cure of throat and lung complaints, that it is useless here to publish the evidence of its virtues. Its unrivalled excellence for coughs and colds, and its truly wonderful cures of pulmonary disease, have made it known throughout the civilized nations of the earth. Few are the communities, or even families, among them who have not some personal experience of its effects—some living trophy in their midst of its victory over the subtle and dangerous disorders of the throat and lungs. As all know the dreadful fatality of these disorders, and as they know, too, the effects of this remedy, we need not do more than to assure them that it has now all the virtues that it did have when making the cures which have won so strongly upon the confidence of mankind.

Prepared by Dr. J. C. AYER & CO., Lowell, Mass.

MOORE & Co., Agents, Victoria, V. I. Sold by H. W. SMITH and Dr. JONES, New Westminster, and by every dealer in the Colony.

I, Arthur T. Bushby, Acting Registrar of the Supreme Court of Civil Justice in British Columbia, do hereby certify that a deed of assignment bearing date the Twelfth day of July, A. D., 1866, and purporting to be a deed made by Theophile DeNouvion, of Lytton, British Columbia, of the first part, John Wilkie and Emil Sutro of Victoria, Vancouver Island, Trustees for and on behalf of themselves and the rest of the creditors of the said Theophile DeNouvion, of the second, and the rest of the several creditors of the said Theophile DeNouvion of the third part, whereby the said Theophile DeNouvion conveyed and assigned all his estate and effects to the said John Wilkie and Emil Sutro, to be distributed by them, the said John Wilkie and Emil Sutro, pro rata among the creditors of him, the said Theophile DeNouvion, was on the second day of August, inst., at twelve, a. m., duly left at my office for registration.

THE CAPITAL QUESTION AGAIN.

There is another phase of this much discussed question to the consideration of which we would invite our readers for a few moments. It will have been observed that every speaker as well as every writer who has treated this subject from a Victoria stand-point has taken the position that while New Westminster was unquestionably selected and established the Capital of the former separate Colony of British Columbia, all the conditions under which that was done have been altered by the Union; and that it is only right and proper the Capital should now go to Victoria, where it would undoubtedly have been placed in the first instance, had the Colonies not been separate—foolishly, wickedly separated. Now, we think a candid review of the subject will completely overthrow this position. In the Organic Act which provided for the Government of British Columbia the following clause occurs:—"No part of the Colony of "Vancouver's Island, as at present "established, shall be comprised within British Columbia for the purpose "of this Act; but it shall be lawful "for Her Majesty, Her heirs and successors, on receiving at any time "during the continuance of this Act a "joint Address from the two Houses "of the Legislature of Vancouver's "Island, praying for the incorporation "of that island with British Columbia "by Order to be made as aforesaid "with the advice of Her Privy Council "to annex the said island to British "Columbia, subject to such conditions "and regulations as to Her Majesty "shall seem expedient; and thereupon, "and from the date of the publication "of such Order in the said island, or "such other date as may be fixed in "such Order, the provisions of this "Act shall be held to apply to Vancouver's Island."

In the "Letters Patent," dated 2nd September 1858, in defining the boundaries of British Columbia the following words occur:—"excepting from the said islands Our Island of Vancouver, until the said island shall, in pursuance of the said Act, be hereafter incorporated into Our said Colony." Now, we would desire to draw particular attention to the language employed in these extracts. Incorporation and annexation are used in the Act, while the former word is repeated in the "Letters Patent." At a period when Vancouver Island, as a distinct Colony, possessed a Legislative Council and a Legislative Assembly, provision was made for her incorporation with, or annexation to, the Colony of British Columbia, then being created a Crown Colony! This incorporation, or annexation was to take place upon Her Majesty's Government receiving at any time during the continuance of the Organic Act a joint address from the two Houses of the Legislature of Vancouver Island; and the result was to be that the Colony of Vancouver Island would surrender its political institutions and its identity and become a part of British Columbia, subject to such conditions and regulations as to Her Majesty should seem expedient—in fact precisely upon the same terms as Vancouver Island *did* become a part of British Columbia on the nineteenth of November last. The Organic Act continued in force until 31st December 1862, and for some time thereafter; but during the continuance of that Act the Legislature of Vancouver Island did not take advantage of the provision above quoted. The consequence was that the annexation of Vancouver Island to the mainland has been brought about in a different way, yet upon precisely similar conditions of surrender and absorption. That the Imperial Government fully anticipated Vancouver Island would avail itself of the provision, there can be no doubt; and that New Westminster was selected and established as the Capital, under the fullest apprehension that Vancouver Island would shortly form a part of British Columdia, and that the selection was virtually made for the United Colony would appear to be equally certain. This is sufficiently obvious from repeated allusions to the subject in State documents, and from remarks made by Sir E. B. Lytton, and other members of Parliament during the passage of the Bill. And no sooner had the Bill passed than the Secretary of State immediately sent for Colonel Moody, a distinguished officer of the Royal Engineers, and commissioned him to proceed to this Colony with special instructions to look out the site for a capital which should combine the qualities of military strength and commercial accessibility. In his instructions to Colonel Moody, the Secretary of State, after alluding to the obvious destiny of Vancouver Island, remarks:—"and therefore I would "have you thoughtfully consider both "the safest and readiest modes of access to British Columbia from the "Pacific, and the several relations between British Columbia and Vancouver Island indicated by nature "and probability." It is obvious, therefore, that New Westminster was not selected as the temporary capital of a colony temporarily separated from a neighboring one; but, on the contrary, that it was carefully selected with a view to its being the permanent capital after the incorporation of Vancouver Island with the larger and more important colony. To suppose anything else would lead to an absurdity. Imagine the Imperial Government, acting, be it remembered, upon the distinct assumption that Vancouver Island would be incorporated with British Columbia within the brief period of four years, making so serious and important a matter of the selection of a capital, if it was only to be of so very temporary a character. The site was selected with an eye to military strength, and evidently with a view to permanency. It was laid off into several hundred lots, with spacious streets, avenues, crescents, terraces, gardens and parks. The whole was announced in Proclamations having the force of law, in dispatches, in the *Government Gazette*, and in official advertisements, as the capital, sold as such, and in every way treated as such; and the Queen was invited to bestow upon it a name, which her Majesty was graciously pleased to do. The Governor, although at the same time administering the affairs of Vancouver Island, was ordered to remove, with his officials, to the new capital, with permission to *visit Vancouver Island* whenever the exigences of the service demanded his presence there. We all know how this order was evaded, how he and several of his officials continued to linger at Victoria in defiance of the orders of the Secretary of State, and the bitter complaints of the people. Yet such was the policy of the Imperial Government, nevertheless, although it was to some extent neutralized at that period by a Governor and several officials who preferred their large local interests to the general good of the Colony. But how absurd all this must appear if the proposition be accepted that New Westminster was merely to be the capital while the colonies continued separate. Why, it would have been absurd, under such circumstances, to order the Governor and his officials to reside here, inasmuch as they would have been little more than settled at the new capital when the contemplated incorporation would have involved another removal. The survey and sale of town lots would, under such circumstances, have been a gigantic official swindle, and the victims would have had good ground for indemnity. There can be no question that New Westminster was selected with a view to its being the capital after the incorporation of Vancouver Island. Nor can it now be asserted with any show of reason that conditions distinctly contemplated at the time in any way alter or weaken its claim to continue the capital of the United Colony.

THIS Company having greatly enlarged their Refining Works, and introduced many other important improvements, are pleased to announce that they feel warranted in again reducing materially their terms of doing business.

THE TARIFF OF CHARGES

Which they now submit to the public—considered with reference to the cost of material and labor—is lower than in any other part of the world, and secures to the mining interest of this coast an important increase in both the mining and commercial value of bullion.

Their charges hereafter will be as follows:—

FOR ASSAYING DEPOSITS FOR UNPARTED GOLD BARS.

One-eighth of one per cent. (hitherto a quarter) for all amounts over $1,000, and two dollars for any smaller sum. Returns made in twenty-four hours.

FOR ASSAYING DEPOSITS FOR UNPARTED SILVER BARS.

Two dollars for the gold contained, up to $1,000, and one eighth of one per cent. for all amounts over that sum, and one per cent. on the silver contained. Returns made in twenty-four hours.

FOR REFINING DEPOSITS MADE FOR COIN OR FINE BARS.

On bullion under 300 parts gold, 2 cents per ounce.
On bullion 300½@600 parts gold, 4 cents per ounce.
On bullion 600½@750 parts gold, 6 cents per ounce.
On bullion 750½@910½ parts gold, 8 cents per ounce.
Above 950 the only charge will be for coinage. But there will be no charge for refining less than two dollars.

FOR COINING GOLD.

This charge will be the same as at the mint—a half of one per cent.—and which is paid by us to that institution. But there will be no charge in future for making fine gold or silver bars from bullion refined by us.

RETURNS IN COIN MADE IN FORTY-EIGHT HOURS.

Silver contained in deposits for coin will be accounted for at the same rate customary at the Mint.

Gold bars of other Assayers in good standing, will be cashed by us at the highest market rates.

Dust and bullion can be forwarded to us from any part of the country, and returns made through Wells, Fargo & Co's Express.

CHARGES AT U. S. BRANCH MINT.

For the convenience of those not familiar with the terms of the Mint, we subjoin the tariff of charges now in force at that Institution.

For refining bullion under 300 parts gold, 5cts per oz.
For refining bullion from 300½@600 parts gold, 5cts. per ounce.
For refining bullion from 600½@750 parts gold, 7cts. per ounce.
For refining bullion from 750½@850 parts gold, 11cts. per ounce.
For refining bullion from 850½@919½ parts gold, 14 cts. per ounce.
The charge for coinage is one-half of one per cent., and the charge for making fine silver bars, the same.
Comparing the net value of deposits for coinage, with the proceeds of unparted gold bars sold in the market—assuming that the bars have cost ½ of one per cent.—they must be sold at the following par rates to equal the return which would have been made had they been deposited for coinage:—
830 par to equal Mint return, at refining charge of 14 cents.
845 par to equal Mint return, at refining charge of 11 cents.
865 par to equal San Francisco A. & R. Works return, at refining charge of 8 cents. ma30 3m

The British Columbian.

SATURDAY, APRIL 13, 1867.

THE "NEWS" IN A RAGE.

It is gratifying to observe that the deserved castigation we felt it our duty to administer to the Victoria *News* a week ago, has taken effect. In a leading article of nearly *two columns* our contemporary asserts that he cares not "the weight of a feather" what the BRITISH COLUMBIAN may think of his course. Rather an odd way of manifesting indifference we should say. Passing over, which we can well afford to do, all those choice passages in which the Representative of the Queen is put on a level with "a policeman" and a "pound-keeper," and in which we are compared to "a bawdy fishwife" and to "Satan," we will condescend to enlighten our amiable contemporary on one point, respecting which he appears to be at sea. In our article a week ago we said:—"The attack which the *News* made upon Governor Seymour, upon the occasion of his Message on Education was absolutely *brutal*, and one would have thought that it would have evoked an outburst of popular indignation calculated to teach the miscreant a wholesome lesson." Respecting this our contemporary, with an assumed air of injured innocence which is quite amusing, says:—"We are accused of having made a "brutal attack" upon Governor Seymour when reviewing his message on the subject of education, but after carefully examining the article, to see whether we had inadvertently written anything to warrant the *Columbian* in making so "brutal" a statement, we fail to discover a fault or to detect any expression that we would be justified in retracting." Now, we did not apply the term "brutal" to what appeared in the leading columns of the *News*, although we confess we might have done so without the slightest injustice. The attack to which we alluded was contained in a short item, which may be found in the second column of the third page of his issue of the 3d ult. That item, considering the peculiar circumstances under which it appeared—the sudden illness of the Governor having been noticed in the very next column—was pronounced "*brutal*" not only by us but by the representatives of the very community in which the *News* is published; and we may mention as a notable coincidence, that the very same term was applied to it by a local contemporary on the very same day that the article appeared in our own columns! Indeed, we believe we are correct in saying that not only the item in question, but the whole tone of the paper in which it appeared, produced but one feeling, and that of the strongest reprobation and disgust, in Victoria as well as here; and we have good reason to believe that our contemporary received the most tangible kind of evidence at the time that such was public sentiment upon the subject. Our contemporary contradicts what we said about his having been induced to go down to Victoria and start a new paper which it was proposed should counteract the pernicious influences of the *Colonist*." For making the statement we had the repeated assertion of the Senior member of the *News* concern, not only made to ourselves, but to many others in this community. If such was mere subterfuge, designed to meet a special emergency, the responsibility obviously rests with our contemporary, not with us. But, whatever may have been the special circumstances under which the paper in question was started, it is very clear that the tone it has assumed towards the Governor for some time back is not calculated to do the cause it professes to serve much good. After dispensing a column of wheyey venom for our special benefit our unlucky contemporary indulges in an allusion to the Rev. R. Jamieson's correspondence with the Governor, which affords conclusive proof that his idea of honor and independance is anything but distinct, and in the course of which he offers a miserable insult to both parties.

ENORMOUS Sturgeons are now being caught in great numbers in the river opposite this city. Several seals have also been taken during the week.

THE RESULT OF PROTECTION.

Everywhere in the lower portion of the Colony the results of the ample protection extended to agricultural productions by the new Customs Tariff are becoming manifest. On the Lower Fraser the most active steps are being taken by many of the settlers with a view to increasing their stock, their appliances and their productive acres. The feeling of confidence and encouragement ingendered by that judicious piece of legislation appears already to pervade the entire rural population; and new life and vigor have been instilled into those who a few months ago were begining to feel discouraged. We should not be in the least surprised if during the coming season the farmers in this district should produce fully fifty per cent. more than in any previous year. The farmers look cheerful and happy, and all that is needed is a favorable season and a good market. On Vancouver Island we learn that much the same improved condition is observable as the result of the new Tariff. Preperations are being made for sowing a much greater breadth of land than hitherto, and the farmers hold their stock at unprecedentedly high prices, asking from $60, to $80, a head for cows of an ordinary quality; and even at these extreme prices they show little disposition to sell, so great is the confidence felt in the remunerativeness of agricultural pursuits under a Government that will appreciate and protect these important interests. We sincerely trust the most sanguine expectations of our farmers will be realized to the fullest extent.

THE NEW CATHEDRAL.

The Congregation of Holy Trinity held a meeting on Wednesday, the principal object of which was to consider the advisability of carrying out the recommendation of the Vestry Meeting in favor of proceeding at once with the erection of a new church. The decision was favorable, and the design of Mr. Tiedeman was accepted. That gentleman has been instructed to prepare the requisite plans and specifications, and as soon as these are completed tenders will be invited and the work prosecuted with the utmost vigor. The edifice is to be Gothic in style, 110 feet long by 50 feet wide, the side-walls 20 feet high, and to be built of granite boulders. The pillars of the nave are 2 feet 8 inches in diameter, octagonal shaped, supporting the arches of the nave. The Chancel is 30 feet long with five windows. The walls inside are to be hard finished. The building will be on the old site or partly so, the end with the bell-tower fronting towards the river instead of the side, as in the case of the old church. As the funds on hand do not quite reach $14,000, it is probable that the entire edifice will not be built in the first instance. We are informed that the granite boulders will produce a very fine effect, presenting a much handsomer appearance than sandstone. The building, when completed, will be creditable alike to the Congregation and to the Capital.

THE INDIAN RESERVES.—Now that the labor and bustle of the Session are over it behooves the Government to set about the work of dealing with the Indian Reservations on the Lower Fraser in right good earnest. We can assure the Government that the subject is one of no ordinary importance and urgency. There is perhaps no question at the present moment in which the settlers feel a more lively interest, or one which more directly affects the progress of agriculture in this district. There is scarcely a settler between Harrisonmouth and Pitt River that does not feel a direct as well as a general interest in the early and thorough adjustment of the whole matter of Indian Reservation, and we trust the Executive will carry out the spirit of the Resolution introduced into the House by the member for New Westminster with that promptitude and earnestness which the importance of the subject demands.

GRAND PARADE.—The Tank at the Camp having been completed the Hyack Fire Company will muster at their Hall, at 2 o'clock p. m. to-day, and proceed to the Camp with the "Fire King," headed by the Band, for the purpose of testing the capacity of the Engine as well as the fitness of the new Tank. The members of the Fire Department will appear in full uniform and every man is expected to be in his place, and do his duty. It is understood that a strong detachment from H. M. Ship Shearwater will be on the ground, and assist at the "breaks." The procession will probably reach the Camp about 3 o'clock.

LOCAL ITEMS.

WE understand the steamer Onward has been chartered for a pleasure excursion to Yale during the week after next. The party will consist of his Excellency the Governor and Mrs. Seymour, and suite, and it is the intention to take a drive out on the road as far as the Alexandra Suspension Bridge or perhaps further. This will afford the party a glimpse of the magnificent scenery of the canyons and mountains of that part of Fraser River. The party will leave here on Tuesday-week. It is to be hoped the delightful weather which we are now enjoying will extend its cheering influence over that week.

THE weather, with a short intermission of blustering wind and rain on Thursday, has been balmy and fructifying during the past fortnight, and vegetation is now coming forward rapidly, although it must be admitted that the season is an usually backward one; yet in this respect British Columbia would not appear to be singular, as intelligence of a severe winter and late spring reaches us from almost every quarter.

MRS. SEYMOUR entertained a large party at Government House on Thursday evening. Captain Oldfield, R. N. Senior Officer in command on this station, together with Captain Smith and the officers of H.M.S. Shearwater, were of the party. The public will be gratified to learn that the health of his Excellency Governor Seymour is improving very much.

CAPT. Fleming, with that courtesy for which he is proverbial, invited the Officers of H. M. S. Shearwater to accept his hospitality for a pleasure trip to Yale. Several of the officers availed themselves of the kind offer, and enjoyed the trip immensely. Their Card of acknowledgement will be found in another column.

HON. Captain Stamp's Mill is expected to commence running some time next week. The steamer Isabel will go round to the Inlet to-day with some articles necessary to the completion of the arrangements. Mr. Rogers is getting out some magnificent logs for the mill.

THE Hon. F. J. Barnard left for Yale on Wednesday for the purpose of maturing preparations for the spring trade. We understand his arrangements for the carriage of mails and passengers as well as for the speedy transmission of Express freight will be more complete than ever.

THE Government dispatch boat *Leviathan* left for Victoria on Wednesday night with the outward mails. H.M.S. Sparrowhawk would receive the mails from the Leviathan and proceed with them to San Francisco, bringing up the mail matter which has accumulated there.

THE Messrs. Robertson of the Bluenose claim, Big Bend, start for these diggings to-day. They take with them all the necessary appliances for hydraulicing their ground upon an extensive scale, and they also take with them the best wishes of this community for their sucess.

ALTHOUGH the utmost vigilance has been used by the Chief Inspector of Police, no trace of the property stolen from the office of the Lands and Works on Monday night has been discovered.

THE Steamer Onward, Capt. Irving arrived from Yale yesterday, having taken up 50 tons of freight and a large number of passengers. She brought down an Express for Deitz & Nelson, but no news of importance.

THE Steamer Lillooet, Capt. Fleming, arrived from Yale yesterday. She went up on Wednesday with a full freight and quite a crowd of passengers.

We understand H. M. S. Shearwater will leave this station on Thursday next.

THE Steamers Isabel, Capt. Pamphlett, and Enterprise, Capt. Swanson, arrived from Victoria yesterday within a few minutes of each other, both with passengers and freight.

THE Municipal Council met on Monday evening. No business of importance was transacted. The regular Quarterly meeting will be held at noon on Monday next.

AMONGST the passengers by the Str. Isabel yesterday were Hons. Capt. Stamp, G. A. Walkem, and A. R. Robertson Esq.

CAPT. Fleming informs us that the water is rising in the river. The steamers will now be able to carry full freights.

HON. E. H. Sanders went up to Yale on Wednesday, where he will await orders to remove to his new district at Lillooet.

HON. Mr. Cox left for Langley on Wednesday to enjoy a week's shooting with Mr. Allard, of the Fort.

HON. A. N. Birch will go down to Victoria to-day by the Enterprise, and return on Tuesday.

TELEGRAPHIC.

SPECIAL DISPATCH TO THE "BRITISH COLUMBIAN."

EASTERN STATES.

CHICAGO, April 8.—The *Journal* says that Sumner reported the Russian treaty favorably. This insures its ratification.

The *Republican* says that Sumner advocated the Russian treaty in a speech of one and a half hours length accompanied by documents, map etc.

The *Herald* considers ratification certain to-morrow or Wednesday. It is claimed that, thirty-two Senators will surely vote for ratification and perhaps more.

The Committee on Foreign Relations reported favorably, recommending ratificatson—Prompt action is required as the treaty allows only three months for definite action.

April 9.—The *Times* says that the State Department has reliable information from Mexico to the effect that Maximillian will be obliged to surrender himself to the Liberal forces. The latter threaten to dispose of Max by a drum-head court and execute him at once.

OTTAWA, April 9.—Parliament has been prorogued until the 18th of May.

NEW YORK, April 8.—By the arrival of the Hansa, we have dates to the 27th ult. In the House of Commons on the 26th various notices were given relative to the Reform Bill. The most important was given by Lord Elcho in behalf of the Grosvenor amendment fixing the borough suffrage bill at five pounds rating.

Mr. Deving gave notice of an intention to move for the reduction of the country franchise to five pounds rating.

Mr. Roebuck promised to move a reduction of the term rating to six months and introduce a longer franchise on the second reading.

Mr. Gladstone explained the position of the opposition. He said that parties might hope to go into Committee on the bill with the idea of coming to a settlement.

The London *Standard* says it is currently reported at St. Petersburg, that an alliance offensive and defensive has been concluded between Prussia and Russia, Romania is a party to the arrangement.

EUROPEAN.

LONDON, April 7.—A recent meeting of the liberal members of Parliament resolved to offer opposition to the Reform Bill introduced by the Government.

They propose to bring the subject to a vote as soon as possible, and confidently expect to carry the majority of Parliament against the bill, in which event the members of the Derby Cabinet will resign.

April 8.—Mr. Lowe stated in the House of Commons to-night that alarming news had been received at Berlin from Paris. The King sent for Bismark at two o'clock on Sunday morning.

April 9.—The liberal party in the House of Commons have split on the Reform Bill, it is now through, and the Derby Goverament is safe.

PARIS, April 9.—Mr Oustere made a very conciliatory speech, which greatly lessened the panic yesterday.

BIRTH.

At the Camp on the 10th inst. the wife of Mr. James Judson Young of a son.

NOTICE.

THE undersigned cautions all persons against negotiating a Note, lost in Fort Yale on the 22d day of November, 1866 and drawn by S. McDonald and R. AYER'S
CATHARTIC
PILLS.

ARE you sick, feeble, and complaining? Are you out of order, with your system deranged, and your feelings uncomfortable? These symptoms are often the prelude to serious illness. Some fit of sickness is creeping upon you and should be averted by a timely use of the right remedy. Take Ayer's Pills, and cleanse out the disordered humors—purify the blood, and let the fluids move on unobstructed in health again. They stimulate the functions of the body into vigorous activity, purify the system from the obstructions which make disease. A cold settles somewhere in the body, and obstructs its natural functions. These, if not relieved, react upon themselves and the surrounding organs, producing general aggravation, suffering & disease. While in this condition, oppressed by the derangements take Ayer's Pills, and see how directly they restore the natural action of the system, and with it the buoyant feeling of health again. What is true and so apparent in this trivial and common complaint, is also true in many of the deep-seated and dangerous distempers. The same purgative effect expels them. Caused by similar obstructions and derangements of the natural functions of the body, they are rapidly, and many of them surely, cured by the same means. None who know the virtues of these Pills, will neglect to employ them when suffering from the disorders they cure.

Statements from leading physicians in some of the principal cities, and from other well known public persons.

From a Forwarding Merchant of St. Louis, Feb. 4, 1856.

DR. AYER: Your Pills are the paragon of all that is great in medicine. They have cured my little daughter of ulcerous sores upon her hands and feet that had proved incurable for years. Her mother has been long grievously afflicted with blotches and pimples on her skin and in her hair. After our child was cured, she also tried your Pills, and they have cured her.

ASA MORGRIDGE.

As a Family Physic.

From Dr. E. W. Cartwright, New Orleans.

Your Pills are the prince of purges. Their excellent qualities surpass any cathartic we posses. They are mild in their operation, and effectual in their action on the bowels, which makes them invaluable to us in the daily treatment of disease.

Headache, Sick Headache, Foul Stomach.

From Dr. Edward Bagg, Baltimore.

DEAR DR. AYER: I cannot answer you *what* complaints I have *cured* with your Pills better than to say *all that we ever treat with a purgative medicine.* I place great dependence on an effectual cathartic in my daily contest with disease, and believing as I do that your Pills afford us the best we have, I of course value them highly.

PITTSBURGH, Pa., May 1, 1855.

DR. J. C. AYER. SIR: I have been repeatedly cured of the worst *headache* any body can have by a dose or two of your Pills. It seems to arise from a foul stomach, which they cleanse at once.

Yours with great respect, ED. W. PREBLE,
Clerk of Steamer Clarion.

Bilious Disorders—Liver Complaints.

From Dr. Theodore Bell, of New York City.

Not only are your Pills admirable adapted to their purpose as an aperient, but I find their beneficial effects upon the Liver very marked *indeed.* They have in my practice proved more effectual in the cure of *bilious complaints* than any one remedy I can mention. I sincerely rejoice that we have at length a purgative which is worthy the confidence of the profession and the people.

DEPARTMENT OF THE INTERIOR,
Washington, D. C., 7th Feb., 1856.

SIR: I have used your Pills in my general and hospital practice ever since you made them, and cannot hesitate to say they are the best cathartic we employ. Their regulating action on the liver is quick and decided, consequently they are an admirable remedy for derangements of that organ. Indeed, I have seldom found a case of *bilious disease* so obstinate that it did not readily yield to them. Fraternally yours, ALONZO BALL, M. D.,
Physician of the Marine Hospital.

Dysentery, Diarrhœa, Relax, Worms.

From Dr. J. G. Green, of Chicago.

Your Pills have had a long trial in my practice, and I hold them in esteem as one of the best aperients I have ever found. Their alterative effect upon the liver makes them an excellent remedy, when in small doses for *bilious dysentery and diarrhœa.* Their sugar-coating makes them very acceptable and convenient for the use of women and children.

Dyspepsia, Impurity of the Blood.

From Rev. J. V. Himes, Pastor of Advent Church, Boston.

DR. AYER: I have used your Pills with extraordinary success in my family and among those I am called to visit in distress. To regulate the organs of digestion and purify the blood, they are the very best remedy I have ever known, and I can confidently recommend them to my friends. Yours, J. V. HIMES.

WARSAW, Wyoming Co., N. Y., Oct. 24, 1855.

DEAR SIR: I am using your Cathartic Pills in my practice, and find them an excellent purgative to cleanse the system and *purify the fountains of the blood.*

JOHN G. MEACHAM, M. D.

Constipation, Costiveness, Suppression, Rheumatism, Gout, Neuralgia, Dropsy, Paralysis, Fits, etc.

From Dr. J. P. Vaughn, Montreal, Canada.

Too much cannot be said of your Pills for the cure of *costiveness.* If others of our fraternity have found them as efficacious as I have, they should join me in proclaiming it for the benefit of the multitudes who suffer from that complaint, which, although bad enough in itself, is the progenitor of others that are worse. I believe *costiveness* to originate in the liver, but your Pills affect that organ and cure the disease.

From Mrs. E. Stuart, Physician and Midwife, Boston.

I find one or two large doses of your Pills, taken at the proper time, are excellent promotives of the *natural secretion* when wholly or partially suppressed, and also very effectual to *cleanse the stomach* and *expel worms.* They are so much the best physic we have that I recommend no other to my patients.

From the Rev. Dr. Hawkes, of the Methodist Epis. Church.

PULASKI HOUSE, Savannah, Ga., Jan. 6, 1856.

HONORED SIR: I should be ungrateful for the relief your skill has brought me if I did not report my case to you. A cold settled in my limbs and brought on excruciating *neuralgic pains,* which ended in *chronic rheumatism.* Notwithstanding I had the best of physicians, the disease grew worse and worse, until by the advice of your excellent agent in Baltimore, Dr. Mackenzie, I tried your Pills. Their effects were slow, but sure. By persevering in the use of them, I am now entirely well.

SENATE CHAMBER, Baton Rouge, La., 5 Dec. 1855.

DR. AYER: I have been entirely cured, by your Pills, of *Rheumatic Gout*—a painful disease that had afflicted me for years. VINCENT SLIDELL.

☞ Most of the Pills in market contain Mercury, which, although a valuable remedy in skilful hands, is dangerous in a public pill, from the dreadful consequences that frequently follow its incautious use. These contain no mercury or mineral substance whatever.

Price, 25 cents per Box, or 5 Boxes for $1.

CURE IS AT HAND!

HOLLOWAY'S OINTMENT

Scorbutic Eruptions, as Sore Heads and Scrofulous Swellings.

If this powerful Ointment be well rubbed into the parts affected, all skin disease will be speedily overcome. It acts not by repression, but repulsion. It enters the system as soon as it enters meat, and operates not locally only, but constitutionally purifying the whole system, neutralizing all depraved humours, and affecting a radical and complete cure. The Pills should be taken as an auxiliary to the Ointment, as they are so prepared as to act in unison with it, facilitating and confirming the conquest of the disease.

Diptheria, Ulcerated Sore Throat and Quinsey.

The above complaints have for twenty years been treated with Holloway's Ointment and Pills with complete success. The cures have been so remarkable, speedy and numerous, that these often fatal diseases are more easily cured by these medicines, than even the common sore throat, if taken in time.

The Kidneys, Stone and Gravel.

In these complaints, the Ointment almost acts like a charm, proving it is very effectually rubbed over the regions of the kidneys, which it will penetrate and give almost immediate relief, while the Pills should be taken according to the printed directions, when the most extraordinary cures may be effected by this means.

Bad Legs, Bad Breasts, Scrofulous Sores, and Glandular Swellings.

In such cases the Ointment operates mildly and with a rapidity that resembles magic. It should be rubbed into the parts affected, after they have been fomented with lukewarm water. The purifying and curative powers of this marvellous unguent have never failed. Any old sore, wound or ulcer always yields to its influence, and in cases of bad breasts, or milk fevers, its action is wonderful. Glandular swellings may soon be reduced by following the printed directions.

The Action of the Heart. Dropsy.

The last named disease is commonly preceded by irregular action of the heart, and difficult respiration, which symptoms are always severe, and ever go from bad to worse, unless proper means of cure are resorted to. In Holloway's unrivalled Ointment and Pills the dropsical patient will ever find succour; the present relief derived from the use of these remedies is marvellously quick, and perseverence in the application of this famous Ointment, invariably results in a cure. They act with such energy on the circulation and absorbent system, that the dropsical fluid vanishes, and the sufferer finds all the oppressive symptoms daily decline, till natural health returns.

Gout and Rheumatism.

May be cured with the greatest certainty if large quantities of the Ointment be well worked into the complaining parts, and this perseveringly done for some time. It is no use to smear it on the skin only, it must be got into the system. Take as many Pills nightly as will act two or three times during the 24 hours; eschew the use of coffee, and all stimulants. When these complaints are leaving the system, the virulence of the complaint frequently seems to increase.

Indiscretion of Youth.

Sores, ulcers and swellings can with certainty be cured if this Ointment be thoroughly rubbed all round the complaining parts twice or thrice a day, keeping them covered with linen rag spread with the same.

The Pills must be taken according to the printed directions. The blood being in an impure state, perseverance is necessary. From inmate motives letters of advice will be answered gratuitously. To save carriage the Pills should be obtained in the neighborhood of the sufferer, and not from Holloway's Establishment.

Both the Ointment and Pills should be used in the following cases:—

Bad Legs,	Chapped hands,	Scalds,
Bad breasts,	Contracted and	Sore Nipples,
Burns,	Stiff Joints,	Sore-throats,
Bunions,	Elephantiasis,	Skin-diseases,
Bite of Mosquitoes and Sand-flies,	Fistulas,	Scurvy,
	Gout,	Sore-heads,
Coco-bay,	Glandular Swellings,	Tumors,
Chiego-foot,	Tings,	Ulcers,
Corns (soft),	Lumbago,	Wounds,
Cancers,	Piles,	Yaws.
Chilblains,	Rheumatism,

TOYS AND FANCY GOODS.—G. C. Clarkson & Co. having made large additions of the above Goods to their stock, any one wishing to make a present would do well to give them a call, as they have a great variety of nice, neat and natty articles of vertu which are useful, and at the same time will please the eye and adorn a table or mantel-shelf. *

HOLLOWAY'S OINTMENT AND PILLS.—Fear Not.—Though surrounded by circumstances disadvantageous to health, these remedies, properly applied, will cut short fevers, influenza, inflammation, diptheria, and a host of other complaints always lurking about to seize on the weak, forlorn or unwary. The superiority of Holloway's medicines over others for subduing disease has been so widely and fully proved, that it is only necessary to ask the afflicted to give them a trial, and if the instructions folded round them be followed no disappointment will ever ensue, nor dangerous consequence result. In hoarseness and ulcerated sore throat the Ointment should frequently be rubbed on the neck and top of the chest: it will arrest the increasing inflammation, allay disquietude, and gradually cure.

CODVILLE LANDING!

Important to Packers, Stock Drivers, and the Public in General.

THE Public are respectfully informed that James Codville, of the wide renowned Codville Landing Ranch, is prepared to receive any number of animals and cattle to ranch this coming winter, on the most liberal terms.

Large Reductions from the regular price made in favor of trains.

Persons intending wintering their own stock can be accommodated with Hay in the stack, and stables and sheds for their animals, and Houses for themselves, on the most reasonable terms.

The Ranch is situated on the opposite side of the Fraser from that of Sumass, is on an island 6½ miles long by 1½ wide, is high and dry, no place where animals can mire, well protected from north winds, free from any kind of poison weed, and affords every facility, natural and artificial, for the accommodation of stock.

James Codville would also call public attention to the fact that he is prepared to furnish Hay at a very reduced price, and in quantities to suit all purchasers.

In returning thanks to the Public for past patronage, I am in hopes that the good condition in which I turned out animals on former seasons will secure for me a share of the Public patronage this coming winter.

Horse covers, pack saddles, and all rigging taken care of, and every satisfaction given for the least possible charge to those who may entrust their stock to me, or order Hay.

AGENTS.—DIETZ & NELSON, New Westm'er.

After a long research, we are able to present the most present the most remarkable cure for these horrid nightmare diseases, the world has ever produced. Within one year over six hundred and forty thousand persons have taken the Plantation Bitters, and not an instance of complaint has come to our knowledge!

It is a most effectual tonic and agreeable stimulant, suited to all conditions of life.

The report that it relies upon mineral substances for its active properties are wholly false.

The original quality and high standing of these goods will be sustained under every and all circumstances. They have already obtained a sale in every town, village, parish and hamlet among civilized nations. Base imitators try to come as near our name and style as they can, and because a good article cannot be sold as low as a poor one, they find some support from parties who do not care what they sell. Mustang Liniment.

Have you a hurt child or a lame horse? Use the Mexican Mustang Liniment.

For cuts, sprains, burns, swellings and caked breasts the Mexican Mustang Liniment is a certain cure.

For rheumatism, neuralgia, stiff joints, stings and bites, there is nothing like the Mexican Mustang Liniment.

For spavined horses, the poll evil, ringbone and weeney, the Mexican Mustang Liniment never fails.

For wind galls, scratches, bog-head and splint, the Mexican Mustang Liniment is worth its weight in gold.

Cuts, bruises, sprains and swellings, are so common and certain to occur in every family, that a bottle of this Liniment is the best investment that can be made.

It is more certain than the doctor—it saves time in sending for the doctor—it is cheaper than the doctor, and should never be dispensed with.

"In lifting the kettle from the fire, it tipped over and scalded my hands terribly. * * * The Mustang Liniment extracted the pain, caused the sore to heal rapidly, and left very little scar.

ADVICE GRATIS!

HOLLOWAY'S PILLS

To Purify the Blood.

These Pills have been placed by the common consent of mankind at the head of all remedies for removing obnoxious poisons from the blood, and cleansing all the viscera of the body. They have saved thousands year after year from falling a sacrifice to the effects of dyspepsia, dysentery, diarrhœa, constipation, liver complaints, &c., as is attested by myriads of witnesses. Excessive weakness and debility, the warnings of decreasing organic energy and vital decay, are restored and reanimated with vigor and healthful action in every organ throughout the system by the restorative and exhilirating influence of this medicine.

Female Complaints.

All disorders of the sex, and diseases in every crisis perilous to the life and health of woman, youthful or aged, married or single, may be radically and quickly cured without risk or trouble, by a few doses of these Pills, taken according to the printed directions.

Indigestion with languor and want of energy.

When taking these Pills, rub Holloway's celebrated Ointment over the pit of the stomach, and over the region of the liver, on the right side under the ribs, and you will at once experience a change for the better in your digestion, spirits, appetite, strength, and energy. The improvement, though it may be gradual, will be thorough and lasting.

DROPSY.

The efficacy of Holloway's Pills in dropsy is extraordinary. They act with such peculiar effect upon the system, that the fluids arising from this direful disease are imperceptibly carried off and prevented from any further accumulation. The sufferer regains a buoyancy of spirits and rejoices in a completely renovated constitution; but it is indispensably necessary that the Ointment should be most effectually rubbed into the complaining parts.

Stomach, Liver, Kidneys and Bowels.

Those who suffer from bile and liver complaints, should try the effects of this valuable remedy, a few doses of which will make the sufferer feel elastic and vigorous, removing all impurities, giving a healthy action to the liver; if bilious attacks be allowed to continue, serious casualties may arise, and the sufferer be consigned to a bed of sickness. In all disorders of the kidneys, the Ointment should be well rubbed into the small of the back, once or twice a day; and the Pills taken in unison, will cure any complaints arising from these organs.

Puffy,—Shortness of Breath with Weakness.

Very bad symptoms, which if not corrected, may tend to some serious disorders of the heart, or other vital organs. Eat moderately of solids, take six Pills nightly for some little time; take plenty of fresh air with moderate exercise, and the human machinery will be quickly restored to health and vigor. Try this but for three days only, and the result will be marvellous.

Complaints Incident to Children.

All complaints of children may soon be cured if care is taken to purify their blood, correct the action of the liver, and cleanse the stomach and bowels: a few doses of these famous Pills will immediately have the desired effect, particularly if parents be careful in not allowing them to eat of things which they know would be injurious to themselves.

Holloway's Pills are the best remedy known in the world for the following diseases:—

Ague,	Female Irregularities,	Scrofula, or King's Evil.
Asthma,	Fevers of all kinds,	Sore Throats,
Bilious Complaints,	Gout,	Stone and Gravel,
Blotches on the Skin,	Head-ache,	Secondary Symptoms,
